It's a Cracker Rolling Snowballs

What you need: A space, one ball.

How to play: Pupils begin standing in a circle with their feet in a straddle position. Number all pupils 1 or 2. With players standing in order 1,2,1,2,1,2 etc.

The aim of the game is for pupils to roll the ball through the legs of a player on the opposing team.

If the ball goes through someones legs, the scoring player gains 1 point for their team. The opposing team completes 5 x touch the floor and jump.

Players cannot roll through the legs of the player either side of them.
Make this easier by playing without teams.
