

19th

It's a Cracker Snow Angels

How to play:

- Split the class into two teams.
- Ask the class a question relevant to their learning this week at school.
- The first pupil to stand in a star shape gets to answer the question. If they answer correctly their team completes 5 x snow angels (or star jumps if you don't have enough room). The opposing team completes 5 x squats.
- Ask another question and so on.

The first team to 50 snow angels wins the game.
